SWIMWEAR: ANCORA

Hi Anna, how are you? Hello! I'm doing great! Thanks for asking.

How is your summer going so far, what are the places to be this summer? My summer is amazing! I have visited a lot of really beautiful places. The places to be are Mykonos, Greece and South France. I was there last summer, and I know, parties are still going on. But this summer I wanted to explore my beautiful homeland - Ukraine. I was pleasantly surprised by the seacoast of Odessa. The weather was pleasant; there is great music and good vibes. I was quite lucky to be at the DJ Solomun show in Ibiza club. I've also visited Poltava. We've stayed at five-star resort property, located just outside of the city in a pine forest. I enjoyed daily horse-riding classes and relaxation massages in their beautiful spa.

Firstly, it's amazing having you as our swimsuit issue cover model, tell us how the photoshoot for the cover was. It was hot, as you can see (laughing). Seriously speaking, we were shooting in a greenhouse, the temperature was about 104 degrees. For tropical plants this is a normal temperature. But for the team and me there was no air to breathe. But we had fun and shooting was really good.

What's your nationality/background? How did you get started in modeling? I'm Ukrainian. I started modeling in the age of 14. My mom brought me to modeling school in Kiev, because of my height. I am 5'11". From that time I've done a lot of modeling gigs.

What have been some of your biggest accomplishments so far as a model? I have more than 25 magazine covers, lots of catwalk shows, a number of TV commercials, clothes catalogues and etc. And I have also won Miss Fashion Universe 2016 and Miss Beauty Summer 2016 contests.

I see you have some pageant background, tell us about it. Miss Fashion Universe in 2016 took place in UAE. It was very interesting to explore new country and new culture. We had a lot of excursions in Dubai and cooking master class in Armani restaurant. I enjoyed every moment of it, and then of course, the moment I was crowned as a winner. Miss Beauty Summer 2016 was taking place in Ukraine, which gave me confidence and I was lucky to win this contest.

Give us an inside scoop on some of your favorite swimsuit designers. I like D&G, Emilio Pucci and Fendi swimsuits. As for USA, year over year my heart belongs to Victoria's Secret swimwear designers. Also I'm in love with duct-tape bikini swimwear trend that was last year Ellements Magazine cover. I tried it on once and it was pretty fun.

Do you work in any other area outside of fashion? Modeling is just hobby for me. Most of the time you will find me coding. You will be surprised, but I work in IT. I started as web developer, and right now I moved up to project management role. I have a Master degree in Computer Science and Engineering. Some of the acronyms on my mind now are Android/iOS apps with Xamarin, frontend web development with Angular, Vue.js and HTML, CSS. I got bored from fashion shows and I felt I need to develop myself along the passion for technology. And now everything is in place. I'm in love with my job.

It's amazing having you, you are wonderful, is there anyone or people you'd like to give a shout out to? I want to say big thanks for all of my friends and family, who supported me. Big one for my parents, who gave me it all to be smart and beautiful. Also I want to send big hugs and kisses to my brother, who lives in New York and also works as an IT developer. And to everyone, who is reading this article, may all of you have a great day and good luck!
