Aries

(21 March - 19 April)

You are more attracted to unusual ideas, fields, and concepts. Exposure to new ideas open up new worlds to you. A trend towards greater flow of personal income is in your forecast, but do be aware that the flow can just as easily come in and go out if you're not careful! A romance begun now might be characterized by sensitivity, concern, and care on the positive side, but it could also be a moody, clinging one. If you are looking for a romance that might lead to marriage and family, this is a favorable time.

Favorable Dates : April 3, 7, 12, 16, 21, 25
Favorable Colors : White & Blue

Gemini

(21 May - 20 June)

You are considerably more intuitive this month. Your mind often runs along moneymaking ideas and anything that has to do with communicating them. Writing and teaching could add to your personal income. Many of you are struggling with a clash of values when it comes to a love relationship and for some of you, with children. Many of you are discovering creative talents you never knew you had, and you are gaining more confidence about sharing and expressing them. It is time to give a new meaning to your personal lives.

Favorable Dates : April 3, 4, 12, 13, 21, 22
Favorable Colors : Blue & Red

Cancer**(21 June – 22 July)**

It's time to formulate some clear goals and plans. This stage of your life may be marked by hard work. Financial success may not be remarkable, yet it is generally steady, if slow to come by. Close partnerships are a real joy this month. You prefer to spend one-on-one time than interacting in group settings. It's a very strong time for those of you looking for a happy partnership. Enjoying domestic activities together, nesting, spending quiet time together, expressing nurturing and protective traits would be the hallmark this month.

Favorable Dates: April 1, 6, 10, 15, 19, 24
Favorable Colors: Blue & White

Leo**(23 July – 22 August)**

You need lots of mental stimulation to keep you from going wacky or suffering from insomnia. You can have more communications with others, and use technology more. Your vision is all the more realistic now, but pleasingly so. You work steadily and determinedly towards your goals. This is an excellent time to go out on a date or ask someone for a favor, because you make a decidedly positive impression at the moment. Sharing long-term goals, hopes, dreams and wishes; treating your partner as a friend as well as a lover; showing tolerance and acceptance would strengthen the bond.

Favorable Dates: April 6, 9, 15, 18, 24, 27
Favorable Colors: Blue & Grey

Virgo**(23 August – 22 September)**

You exude more confidence and tend to be more robust now. This is a generally favorable time to take the initiative. By expressing and emphasizing your diplomatic, tactful, compromising skills and expressing a harmonious, cooperative, and pleasing manner, you make your impact in professional world. You are also learning to "own" your creative voice and the style in which you interact becoming less reticent about expressing yourself in creative ways, as well as communicating your ideas and perspectives. It's time to strike a balance between your own needs and those of another.

Favorable Dates: April 2, 5, 11, 14, 20, 23
Favorable Colors: Purple & White

Libra**(23 September – 22 October)**

You do your best thinking alone, out of the spotlight, and have to sift through the haze to figure out what you want to do. You'll keep your ideas to yourself more, and not share your opinions as openly or frequently. You will be one step closer to knowing where you are headed, and you will have re-built faith in yourself. Ideally, you adopt a more mature attitude towards adventure and facing the unknown. If single, you may have better chances finding love while traveling, doing adventurous things, or furthering your education.

Favorable Dates: April 1, 9, 10, 12, 19, 27
Favorable Colors: Yellow & White

Scorpio**(23 October – 21 November)**

You are likely to derive much satisfaction from your achievements that come from your hard work. Your income is likely to increase, and there may be an opportunity to improve your future financial situation. However, you may also be just as inclined to splurge on yourself, plumping up your nest or your store of personal possessions. You are now treated to a realistic look at what you have built and achieved. Your powers of attraction run high. Love comes to you rather than your having to pursue.

Favorable Dates: April 6, 8, 15, 17, 24, 26
Favorable Colors: Yellow & Purple

Sagittarius**(22 November -21 December)**

Your desire for pleasure, ease, and affection is brought to the fore and may interfere with work or complicated situations in which you need to be acting assertively. Your mood and attitude is conciliatory, and your need for love and approval heightened. During second half, you let go of self-defeating attitudes that have been holding you back, you recognize exactly where you have been overdoing your expectations, and you find new ways to nurture faith, hope, and vision. You will be working on perfecting and refining skills that will be useful on the job.

Favorable Dates: Apr. 3, 10, 12, 15, 21, 30
Favorable Colors: Red & White

Capricorn**(22 December – 19 January)**

You are particularly determined, ambitious, goal-oriented, and desirous of taking charge of your future. You seem to need more order in your life, and it's an excellent time for achieving this. Bouncing ideas off a special person in your life will produce great benefits. You are more able to accomplish something solid this month. Monetary problems from the past may clear up during this period. Relationships begun now are: emotionally charged, domestic, potentially long-lasting, somewhat private—they run deep. The relationship is likely to be sentimental, and perhaps somewhat insular.

Favorable Dates: April 4, 7, 13, 16, 22, 25
Favorable Colors: Red & Grey

Aquarius**(20 January – 18 February)**

It's a time when the need for progressive change suddenly becomes apparent. You can open yourselves up to new ways of thinking now. You are open to new energies, approaches, and attitudes. It's a period ripe with opportunity for attracting others, for turning on the charm, and for receiving positive feedback from partners or love interests. Love seems to come to you at the drop of a hat. What makes you feel comfortable and secure needs to be balanced with attention to other people's needs and comfort levels.

Favorable Dates: April 2, 3, 11, 12, 20, 21
Favorable Colors: Yellow & White

Pisces**(19 February – 20 March)**

This month is excellent for opening your mind to new ideas, and your heart to new experiences. This a period for finding more meaning in your life. You're trying new ways of approaching the world around you, exploring beyond your usual bounds, and breaking out of the normal routine. You may be verbalizing your affections very well now, or there can be a focus on loving chats and sweet talk. Some of you will find or enhance love through the phone or chat lines, or with fellow students or in the neighborhood.

Favorable Dates: April 5, 7, 14, 18, 23, 25
Favorable Colors: Purple & Green
